

GrowSmart Training April Newsletter

Riverland Horticultural Council, trading as **GrowSmart Training** is an **incorporated, not for profit** organisation, providing training in:

- **Horticulture, Production Horticulture, Conservation & Land Management (WorkReady subsidies available for Certificate III in Horticulture, Production Horticulture and Conservation & Land Management – and Certificate IV in Conservation & Land Management)**
- **Short Courses**
 - **Chainsaw operation and maintenance**
 - **Quad Bike operation**
 - **Mobile Elevating Work Platform – daily maintenance and operation**

ChemCert

GrowSmart Training will no longer be delivering ChemCert courses, effective immediately. We have been involved with ChemCert for many years, but the requirements now mean that we can no longer be involved.

Our long standing ChemCert trainer, Ian White, has decided to retire. Ian has made a wonderful contribution to the Riverland through his extensive training work. We certainly wish him well in his retirement.

In the future ChemCert will be running the courses in the Riverland.

The full courses and reaccreditation will be run together over a single day (with some pre-course work for new people). All participants (whether they are doing the course for the first time or being reaccredited) will be required to complete the ChemCert assessment booklet.

More information about ChemCert can be found on their website: www.chemcert.com.au

Accredited chemical training is also offered by Smith and Georg. Their web address is: www.smithandgeorg.com.au

Other Training

All other GrowSmart Training programs will continue (including WorkReady subsidised training)

Chainsaw Course

Our next course is scheduled for Tuesday, May 1 in Loxton. Cost is \$200

Please contact us if you would like to book a place

**For more information about any of our training or with any requests
you have for short courses please contact:**
